

Jammu & Kashmir After 370 With Mathematics

Jayashri Joshi

Assistant Professor, Department of Mathematics, Sarhad College of Arts, Commerce and Science

ABSTRACT

Article 370 & 35 A has been plaguing the nation for past 70 years. The ill drafted article was creating a feeling of separatism & discrimination in the country. Article 370 was a 'temporary provision which gave special status to Jammu and Kashmir. The state of Jammu & Kashmir has been accorded special status under Article 370. The provisions which are applicable to other states of India are not applicable to J&K. Sheikh Abdullah has drafted this provision in 1947, then was appointed as prime minister of Jammu & Kashmir by Maharaja Hari Singh and Jawahar Lal Nehru. To integrate the state of J & K with rest of India, it was the most needed step to abrogate article 370. In Kashmiri Hindus were thrown out of the valley & our own countrymen did not have the right to own property in Kashmir. The consequences of abrogation of Article 370 would certainly bring prosperity & peace in the region. The state would be a home for IITs, IIMs & many more prestigious institutions. The growth & development would be fast & at par with the other states. Mathematics is a tool that makes us to understand importance of the integrated J & K and how it grows with rest of India. J & K would be a 'mukut' of Bharat.:

Keywords: Development of Jammu and Kashmir, higher education, Role of Mathematics.

ARTICLE 370 INTRODUCTION

Article 370 was a 'temporary provision which gave special status to Jammu & Kashmir. The state of Jammu & Kashmir has been accorded special status under Article 370. All the provisions of the Constitution which are applicable to other states are not applicable to J&K. Sheikh Abdullah has drafted this provision in 1947, then was appointed as prime minister of Jammu & Kashmir by Maharaja Hari Singh and Jawahar Lal Nehru and . According to this article, except for defense, foreign affairs, finance and communications the provisions those are applicable to other states of India are not applicable to J and k this means the state followed different laws such as citizenship, ownership of property and their rights as compared to other Indian citizens. This results that Citizens of India cannot purchase land and property . "Permanent resident certificates" were issued by the state government officials of Jammu and Kashmir. Gender difference is seen while issuing certificates. And these certificates are required by state officials of Jammu and Kashmir who wants to take property, education or employment in the state government

OBJECTIVE OF STUDY

- 1) Study of consequences after the Abrogation of Article 370 and 35 A at Jammu and Kashmir
- 2) Mathematics skills gives understanding of increase in economic conditions at Jammu and Kashmir after the Abrogation of Article 370 and 35 A

DATA COLLECTION

The secondary data collected from different books , news papers and articles and research journals is laid in the descriptive format in this paper.

NEED FOR ABROGATION OF ARTICLE 370

To integrate the state of J & K with rest of India, it was the most needed step to abrogate article 370. The provision of the article was temporary in nature created & posed threat to the very idea of India. Kashmiri Hindus were thrown out of the valley & our own countrymen did not have the right to own property in Kashmir. We keep on speaking on gender equality if a beti of Kashmir gets married to a non Kashmiri man she would lose her right on property. The tenure of J&K assembly was 6 years & the state had it's own flag.

All the elements that created feeling of separatism were there. The only way to get rid of these inequalities & to integrate the state completely with rest of India was to abrogate Article 370.

ABROGATION OF 370 ARTICLE:

Government of India issued a new constitutional order on 5th August 2019 to abrogate 370 Article and 35A to give all the provisions to Jammu and Kashmir. In addition, the parliament passed reorganization act of Jammu & Kashmir on 31 October 2019 which make a law of division of the state of Jammu and Kashmir in to two union territories

- i) Jammu and Kashmir Union Territory
- ii) Ladakh. Union Territory

The removal of the Article 370 resulted in many advantages in the development of Jammu and Kashmir. The state was kept isolated for last 70 years and was responsible for States tardiness but was favorable only to separatists and their associates.

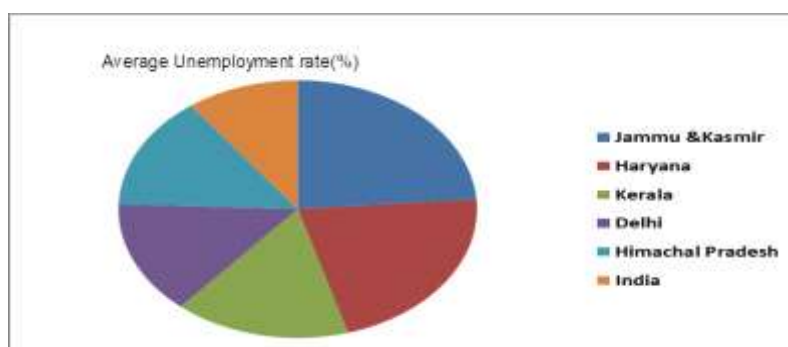

Impact of removal of Article 370 : The abrogation of Article 370 would certainly bring prosperity to entire J& K. The job opportunities to the youth of the state will see a new high. The fruits are there to see for everyone. The rise terrorism has been controlled by neutralizing terrorists. The state is looking forward to new horizon of development in all the areas. The economy would see a sea change & get a required boost. Development without educational prosperity is next to impossible. The state would be a home for IITs, IIMs & many more prestigious institutions. The growth & development would be fast & at par with the other states.

INCREASE IN ECONOMIC CONDITIONS OF LAND OWNER:

Earlier there were conditions on transfer of land but now the abrogation of Article 370 will lead to growth in the economic conditions of land owner, as land rates will increase as in the other parts of the country which remained stagnant for these many years, no one will lose their land nor forced to sell their land

Tourism and employment: Mathematics tells unemployment rate is more in Jammu and Kasmir .compared to other parts of country. Tourism will be one of the major sector to improve job opportunities in J& k. Investment in the improvement of tourist infrastructure and hotels Will increase the job opportunities. And even Promoting to film shooting, adventure and religious tourism such as Vaishnv Mata will raise the employment ratio.

State	Average Unemployment rate(%)
Jammu & Kashmir	15
Haryana	13.7
Kerala	10
Delhi	9
Himachal Pradesh	9
India	6.4

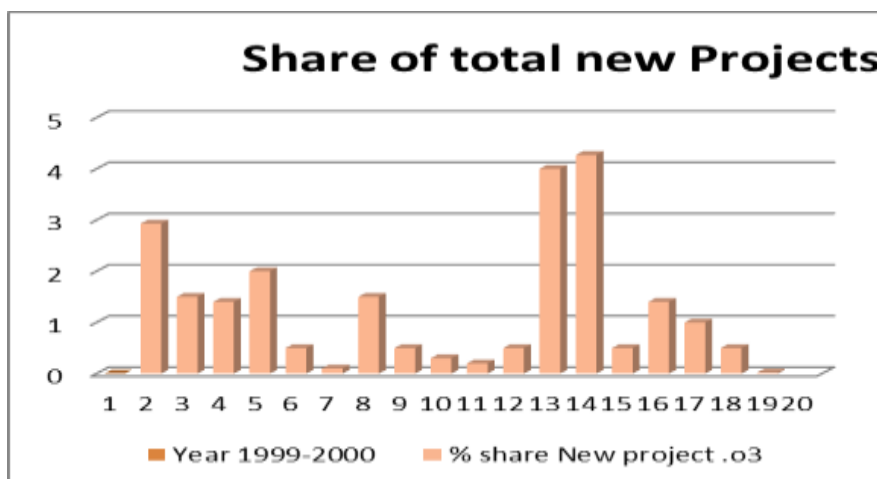

Above fig shows that unemployment ratio is high at Jammu and Kashmir compared to average of nations unemployment ratio .

EDUCATION AND NATIONS ECONOMY

Education plays an important role in development of every nation and is always direct proportion with Indian economy. Earlier higher education and quality of education was not possible for the J &K people like the people of other parts of India. They were always underprivileged with the opportunities of higher education like IIM, IIT, due to lack of quality education and training. This resulted in the inability to compete effectively to India level even though they had talent. Even the students of J and K are not getting proper education due to anti social activities running in the state these factors lead to 40% of unemployment in the state. State does not have a single private university and students are forced to other parts of India for education. Now due to removal of article 370 . students are benefitted with well equipped quality education. And now we can build IIM, private universities and students get education in their state itself. This increase interest and confidence among the students. Definitely this is a big step towards nation’s development and economy

Year	% share New project
1999-2000	.03
2000-2001	1.35
2001-2002	2.93
2002-2003	1.5
2003-2004	1.4
2004-2005	2
2005-2006	0.5
2006-2007	0.1
2007-2008	1.5
2008-2009	0.5
2009-2010	0.3
2010-2011	0.2
2011-2012	0.5
2012-2013	4
2013-2014	4.27
2014-2015	0.5
2015-2016	1.4
2016-2017	1
2017-2018	0.5
2018-2019	0.02

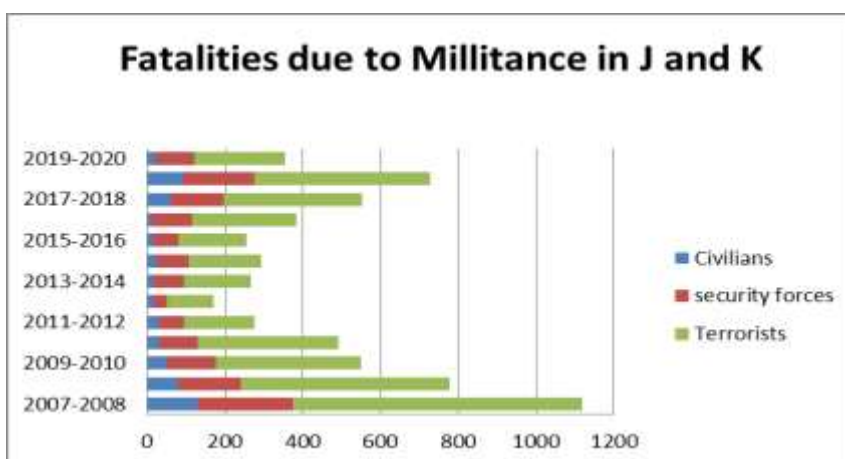

HEALTH CARE AND EMPLOYMENT

Earlier patients of J and K used to travel to Delhi and Mumbai for quality treatment as there was no facility of private well equipped hospitals. But now koinvestment brings quality health care in the state creating more jobs and makes a J & K medical tourism hub.

Defense and economy of state: Government fixed a large amount of budget for safety and protection of citizen of J and K . after abrogation of 370 article anti social activities in the states will reduce . youth will be assured with job security and improvement in economic condition, which ultimately results in peace and development of nations economy. Budget for defense will be reduced and in turn can be utilized for the development of state. Mathematical calculation shows large amount of budget was utilized earlier now there will be a drastic reduction. and also the fatalities due to militancy for civilians, security forces and terrorist is shown as below.

FATALITIES DUE TO MILITANCY IN J & K

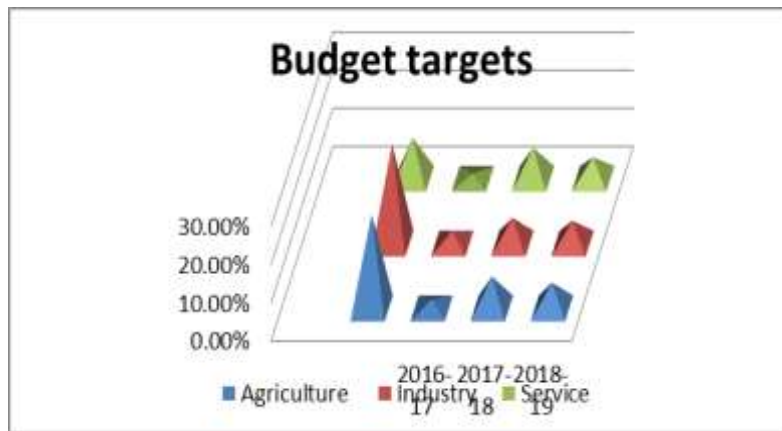

Year	Civilians	security forces	Terrorists
2007-2008	130	245	744
2008-2009	80	160	538
2009-2010	50	125	376
2010-2011	30	100	361
2011-2012	30	65	181
2012-2013	15	35	121
2013-2014	15	80	172
2014-2015	25	80	189
2015-2016	15	65	175
2016-2017	10	105	267
2017-2018	60	135	357
2018-2019	90	185	452
2019-2020	20	100	235

J AND K ECONOMY CONDITION

Year	Agriculture	Industry	Service
2015-16	24.70%	26.20%	10.80%
2016-17	2.50%	3.40%	1.40%
2017-18	8.40%	6.80%	8.20%
2018-19	6.80%	6.00%	5.70%

This graph shows the increase in different sectors such as Agriculture, Industry and services

Industry and service are projected which will lead to increase in growth of states economy in forth coming years. Above graph shows how we can achieve developed economically strong state in future. Mathematics is a tool that makes us to understand importance of the integrated J & K and how it grows with rest of India. J & K would be a ‘mukut’ of Bharat.

Conclusion: Abrogation of 370 Article brought a new hopes and aspiration for the youth of Jammu and Kashmir. Now everyone in the state can live a peaceful and desired life like other parts of the people from India. Mathematics is important to understand the economic growth and financial condition of J and K and Nation safety and prosperity.
